### Report Volume – I

Foreword  
 Preface  
 Check List  
 Salient Features  
 Executive Summary  
 List of Officers Associated in Preparation of DPR  
 Index Map

#### Volume –I - Main Report

Para No.	Particulars	Page No.
	<b>Chapter – 1</b>	
	<b>Introduction</b>	
1.0	General	1
1.1	Proposals received from Govt. of Maharashtra	1
1.1.1	Aim and Justification of the Project	2
1.2	Location of Project Area	3
1.3	Communication Facilities	5
1.4	General Climatic Conditions of the State and Project Area	6
1.4.1	The Rainfall	6
1.5	Topography, Physiography and Geology of the Region	8
1.5.1	River System & Topography	8
1.5.2	Physiography	10
1.5.3	Geology	11
1.6	Population	11
1.6.1	Population affected/benefited	12
1.6.2	Occupation	13
1.7	Natural Resources	14
1.7.1	Water Resources	14
1.7.1.1	Wainganga/Pranhita Sub-basin	14
1.7.1.2	Wardha Sub-basin	14
1.7.1.3	Tapi Basin	15

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
1.7.1.4	Wainganga/Pranhita Sub-basin upto Gosikhurd	15
1.7.2	Land Resources	16
1.7.3	Agriculture	17
1.7.4	Mineral Wealth	18
1.7.5	Industry	18
1.7.6	Tourism	18
1.7.7	Scriptural Importance	19
1.7.8	Culture & People	19
1.8	Land Use and Socio-economic Aspects	20
1.8.1	Cropping Pattern	20
1.8.2	Socio-economic Aspects	20
1.8.3	Drought Prone Areas	21
1.8.4	Ground Water	21
1.8.5	Water Quality	23
1.9	Selection Proposed Scheme	23
1.9.1	Earlier Proposals	23
1.9.2	Proposal at Pre-Feasibility Report Stage (PFR)	25
1.9.3	Main Components proposed at PFR stage	26
1.10	Present Studies at DPR Stage	26
1.10.1	Main Components of the Present Proposal (DPR Stage)	28
1.10.2	Background for Changes at DPR Stage	32
1.11	Project Planning and Optimisation of Benefits	32
1.12	Stages/Phases of Development of the Project	34
1.13	Fitment of the Scheme in overall Development of the Region	34
1.14	Intimation to other Development Authorities regarding the Scheme	35
1.15	Experiences of Inter linking of Rivers in India	35
1.16	Methodology Adopted	38
1.16.1	Surveys & Investigations	38
1.16.2	Topographical Surveys	39
1.16.3	Investigations carried out by other Organisations/Agencies	39
1.16.4	Technical Studies	40

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
1.16.4.1	Hydrological Studies	40
1.16.4.2	Irrigation Planning and Command Area	41
1.16.4.3	Design of Important Project Components	41
1.16.4.4	Construction Program, Man-Power Deployment and Plant Planning	42
1.16.4.5	Environmental Impact Assessment (EIA), Environmental Management Plan (EMP) and Socio-economic Survey	42
1.16.4.6	Cost Estimate	42
1.17	Monitoring Mechanism	42
1.18	Clearances required	43
1.19	Public Announcements and Public Hearings	44
1.20	Interlinking of the Scheme with Neighbouring Schemes	44
1.21	Inter-State / International Aspects	44
1.22	Cost and Benefits of the Scheme	45
1.22.1	Cost of the Project	45
1.22.2	Benefits from the Project	45
1.23	Public Co-operation and Participation	45
	<b>Chapter – 2 Physical Features</b>	
2.0	General	46
2.1	Geographical Disposition	46
2.2	Topography of the Basins, Reservoirs and Command Area	48
2.2.1	Godavari Basin	50
2.2.1.1	Wainganga/Pranhita sub-basin of Godavari basin	51
2.2.1.2	Wainganga sub-basin upto Gosikhurd dam	52
2.2.1.3	Wardha sub-basin of Godavari basin	52
2.2.1.4	Wardha sub-basin upto Lower Wardha dam	53
2.2.2	Tapi Basin	53
2.2.2.1	Purna Tapi sub-basin	54
2.2.2.2	Katepurna sub-basin upto Katepurna dam	54
2.2.2.3	Nalganga sub-basin upto Nalganga dam	54
2.2.3	Topography of Reservoirs	55

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
2.2.3.1	Gosikhurd reservoir	55
2.2.3.2	Lower Wardha reservoir	55
2.2.3.3	Katepurna reservoir	56
2.2.3.4	Nalganga reservoir	56
2.2.4	Command Area	56
2.3	Geology of the Basins, Reservoirs and Command Area	57
2.3.1	Geology of Wainganga/Pranhita sub-basin	57
2.3.2	Geology of Wardha sub-basin	58
2.3.3	Geology of Purna Tapi sub-basin	58
2.3.4	Geology of the reservoirs	61
2.3.4.1	Gosikhurd reservoir	61
2.3.4.2	Lower Wardha reservoir	61
2.3.4.3	Katepurna reservoir	61
2.3.4.4	Nalganga reservoir	61
2.3.5	Geology of Command Area	61
2.3.5.1	Nagpur District	62
2.3.5.2	Wardha District	63
2.3.5.3	Amravati District	63
2.3.5.4	Akola District	64
2.3.5.5	Buldhana District	65
2.3.5.6	Yeotmal District	66
2.4	River System and Catchment Area	67
2.4.1	Wainganga/Pranhita river	67
2.4.2	Wardha river	67
2.4.3	Purna Tapi river	68
2.4.3.1	Katepurna river (Tributary of Purna Tapi river)	68
2.4.3.2	Nalganga river (Tributary of Purna Tapi river)	69
2.4.4	River System Enroute the link	69
2.5	Basin Characteristics	69
2.5.1	Rainfall	69
2.5.2	Temperature, Relative Humidity, Wind Speed and Cloud Cover	70

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
	<b>Chapter – 3 Inter-State Aspects</b>	
3.0	General	71
3.1	States Traversed by the Rivers	71
3.1.1	Wainganga/Pranhita river	76
3.2	State-wise/District-wise distribution of Catchment of Pranhita sub-basin	77
3.3	Godavari Water Disputes Tribunal (GWDT) Award	80
3.3.1	Relevant excerpts from GWDT Award	80
3.4(a)	Effect on Project and of the Project on the Interstate Agreement on sharing of Waters, sharing the Benefits and Costs, Acceptance of submergence in the Upstream State etc., if any	85
3.4 (b)	Effect on Project and of the Project on the Interstate Adjudication, if Any	86
3.4(c)	Effect on Project and of the Project on the Interstate Aspect of territory, property, etc., coming under submergence, project affected people, rehabilitation, compensation, etc.,	86
3.4(d)	Effect on Project and of the Project on the Existing and Sanctioned Projects	86
3.5	Summary of Inter-state Aspects of the Link Project	87
	<b>Chapter – 4 Surveys and Investigations</b>	
4.0	General	88
4.1	Topographical Surveys	90
4.1.1	Rivers	92
4.1.2	Reservoirs	93
4.1.3	Head Works	93
4.1.4	Plant and Colony Layout	95
4.1.5	Canal & Water Conductor System and Canal Structures	95
4.1.6	Lift Points	98
4.1.7	Command Area	99
4.2	Other Surveys	99
4.2.1	Archaeological Survey in the Canal Area	99

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
4.2.2	Mineral Survey in Canal Area	100
4.2.3	Right of Way Surveys for the Reservoirs	100
4.2.4	Communication Surveys	101
4.2.5	Drainage Surveys	102
4.2.6	Soil Surveys	103
4.2.7	Cadastral Surveys	103
4.2.8	Canal-top Solar Power Potential Studies	104
4.3	Geology and Seismic Investigations	105
4.3.1.	Regional Geology	105
4.3.2	Local Geology	107
4.3.3	Geological and Geotechnical Investigations	108
4.3.4	Laboratory Investigations of Rock Samples	110
4.3.5	Geophysical Investigations	112
4.3.6	Seismic Investigations	112
4.4	Geotechnical Investigations (Soils) and Borrow Area Survey	113
4.4.1	Soil Investigations along the Canal Alignment	113
4.4.2	Laboratory Investigations on Soil Samples from the Canal Alignment including Borrow Area	114
4.4.3	Foundation Investigations of CD/CM Structures	119
4.5	Construction Materials Survey	122
4.5.1	Rock and Aggregates	122
4.5.2	Sand	124
4.5.3	Bricks and Tiles	126
4.5.4	Pozzolana	126
4.5.5	Cement	126
4.5.6	Steel	126
4.5.7	Scarce Material	127
4.5.8	Any other Material	127
4.6	Hydrological and Meteorological Investigations	127
4.6.1	Rainfall and Run-off	127
4.6.1.1	Rainfall	127
4.6.1.2	Run-off	128

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
4.6.2	Sunshine, Cloud Cover and Visibility	129
4.6.3	Wind Velocity	129
4.6.4	Relative Humidity	130
4.6.5	Temperature	130
4.6.6	Sedimentation	130
4.6.7	Water Quality	130
4.6.8	Evaporation	131
	<b>Chapter –5</b> <b>Hydrology and Water Assessment</b>	
5.0	General	132
5.1	General Information about Regions	132
5.1.1	Specific Information	136
5.1.1.1	Drainage Basin	136
5.1.1.2	Command Area	141
5.1.1.3	Floods and Drainage	141
5.1.1.4	River Geometry	145
5.1.1.5	Ground Water Recharge	146
5.1.1.6	Reservoir Area	148
5.1.1.7	Other Water Usage	148
5.1.1.8	Navigation	149
5.1.2	Data Availability	149
5.1.2.1	Rainfall and Snowfall	149
5.1.2.2	Pan Evaporation	150
5.1.2.3	Climatological Parameters like Temperature, Humidity and Wind Speed in the Command Area	151
5.1.2.4	River Gauge and Discharge	151
5.1.2.5	Sediment (Suspended and Bed Load) Inflow	155
5.1.2.6	Water Quality	156
5.2	Water Balance Study of Pranhita Sub -basin of Godavari Basin	156
5.3	Water Balance Study of Wainganga at Gosikhurd Dam Site	157
5.3.1	Past Studies	157
5.3.2	Present Study	160
5.3.2.1	Hydrological Data Requirement	161
5.3.2.2	Time Unit for Simulation Studies	161
5.3.3	Compilation of Basic Hydrological Data	162

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
5.3.3.1	Hydrological Investigations	162
5.3.3.2	Data from Other Sources	162
5.3.4	Processing of Data	162
5.3.4.1	Quality of Data	163
5.3.4.2	Filling of Short Data Gaps	163
5.3.4.3	Adjustment of Records	163
5.3.5	Consistency of Data	163
5.3.5.1	Internal Consistency	163
5.3.5.2	External Consistency	173
5.3.6	Presentation of Data	175
5.4	Surface Water Availability	178
5.5	Water Requirement	181
5.5.1	Share of Madhya Pradesh ( MP)	181
5.5.2	Upstream Utilization in Maharashtra (MS)	184
5.5.3	Domestic Water Requirement	185
5.5.4	Industrial Water Requirement	188
5.5.5	Total Surface Water Requirement	189
5.5.6	Regulated Flow from Madhya Pradesh Catchment	189
5.5.7	Regeneration	190
5.6	Water Balance of Wainganga upto Gosikhurd Dam Site	190
5.7	Wainganga (Gosikhurd) – Nalganga (Purna Tapi) link project : Effect on Hydrological Regime of Wainganga/Pranhita Sub-basin d/s of Gosikhurd Dam Site	192
5.8	Presentation of Hydrological Inputs for Simulation	192
5.8.1	Water Inflows	192
5.8.2	Sedimentation Studies	192
5.8.2.1	Rate of Sedimentation	192
5.8.2.2	Elevation Area Capacity Curves	193
5.8.3	Potential Evapotranspiration and Rainfall	193
5.8.4	Flood Inputs	195
5.8.5	Inputs for Water Quality	195
5.8.6	Low Flow Inputs	196
5.8.7	Surface to Groundwater Recharge	196
5.9	Simulation Studies of Gosikhurd Reservoir	196
5.9.1	Gosikhurd Reservoir	196

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
5.9.2	Inflow Series into the Reservoir	197
5.9.3	Project Demands	197
5.9.4	Simulation Results	198
5.10	Design flood and Diversion Flood	200
5.11	Studies for Design of Drainage in the Command Area	200
5.12	Determination of Levels for Locating Structures on Outlets	200
5.12.1	Location of Structures	201
5.12.2	Location of Outlets	201
5.13	Model Studies	202
5.14	Minimum Flow for Environmental Consideration	202
5.15	Effect of Project on Hydrologic Regime	202
5.15.1	Impact on Existing Projects in the Downstream of Planned Project	202
5.15.2	Effect on Low Flows	203
5.15.3	Effect on Flood Hydrology	203
5.15.4	Effect on Total Runoff	203
5.15.5	River Hydraulics	203
5.15.6	Sediment Yields, Sediment Carrying Capacities and Aggradation and Degradation at Various Locations	203
5.15.7	Water Quality	204
5.15.8	Water Demand	204
5.16	Water Allocation and Inter-State Aspects	204
	<b>Chapter –6 Design Aspects</b>	
6.0	Engineering Assessment	205
6.1	General	205
6.2.1	Geology	206
6.2.2	Seismicity	206
6.2.3	Foundation Treatment	207
6.3	Head Regulators	207
6.3.1	Head Regulator at Gosikhurd Dam	207
6.3.2	Head Regulator at Lower Wardha Dam	210
6.3.3	Head Regulator at Katepurna Dam	210
6.4	Pump Houses	212

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
6.4.1	Sump /Intake Well	213
6.4.2	Pumps	214
6.4.3	Electro Mechanical Equipments	217
6.4.4	Delivery Main	217
6.4.5	Delivery Cistern	217
6.5	Design Aspects of Link Canal	220
6.5.1	Canal Alignment	221
6.5.2	Canal capacity	222
6.5.3	Hydraulic Designs	223
6.5.3.1	Link Canal/Open canal	223
6.5.3.2	Tunnels	226
6.5.3.3	Pipelines	232
6.5.4	Details of Lining Provided	235
6.5.5	Description of Soil Profile along the Link Alignment	235
6.5.6	Evaluation of Design Parameters based on the Samples collected along the Canal Alignment, Borrow Area and suggested Treatment for Problematic Reaches	235
6.5.7	Transmission Losses	236
6.6	Canal Structures across Link Canal	236
6.6.1	Cross Drainage Works/Regulators	236
6.6.2	Layout and Foundation	237
6.6.3	Cross Drainage Works	237
6.7	Study of Integrated Network of Canal System and its Operation	244
6.8	Broad Outline of Canal Automation and Branch Canals upto 8 Cumec	244
6.9	Instrumentation	245
6.10	Other Studies	245
	<b>Chapter – 7 Reservoirs &amp; Enroute Storages</b>	
7.0	General	246
7.1	Gosikhurd Dam	247
7.1.1	Fixation of Storage and Reservoir Levels	248

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
7.1.1.1	Dead Storage Level (DSL)/ Minimum Draw Down Level (MDDL)	248
7.1.1.2	Full Reservoir Level (FRL)	248
7.1.1.3	Maximum Water Level (MWL)	249
7.1.1.4	Spillway	249
7.1.2	Water Quality	249
7.1.3	Sedimentation	252
7.1.4	Life of Reservoir	253
7.1.5	Capacities	253
7.1.6	Area of Submergence (ha)	253
7.1.7	Flood Absorption/Reservoir Operation Policy	255
7.2	Lower Wardha Dam	256
7.2.1	Fixation of Storage and Reservoir Levels	257
7.2.1.1	Dead Storage Level (DSL) / Minimum Draw Down Level (MDDL)	257
7.2.1.2	Full Reservoir Level (FRL)	257
7.2.1.3	Maximum Water Level (MWL)	257
7.2.1.4	Spillway	258
7.2.2	Water Quality	258
7.2.3	Sedimentation	261
7.2.4	Life of Reservoir	261
7.2.5	Capacities	261
7.2.6	Area of Submergence (ha)	261
7.2.7	Flood Absorption/Reservoir Operation Policy	262
7.3	Katepurna Dam	264
7.3.1	Fixation of Storage and Reservoir Levels	264
7.3.1.1	Dead Storage Level (DSL)/Minimum Draw Down Level (MDDL)	264
7.3.1.2	Full Reservoir Level (FRL)	265
7.3.1.3	Maximum Water Level (MWL)	265
7.3.1.4	Spillway	265
7.3.2	Water Quality	265
7.3.3	Sedimentation	267
7.3.4	Life of Reservoir	268
7.3.5	Capacities	268

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
7.3.6	Area of Submergence (ha)	268
7.3.7	Flood Absorption/Reservoir Operation Policy	269
7.4	Nalganga Dam	271
7.4.1	Fixation of Storage and Reservoir Levels	271
7.4.1.1	Dead Storage Level (DSL) / Minimum Draw Down Level (MDDL)	271
7.4.1.2	Full Reservoir Level (FRL)	272
7.4.1.3	Maximum Water Level (MWL)	272
7.4.1.4	Spillway	272
7.4.2	Water Quality	272
7.4.3	Sedimentation	273
7.4.5	Life of Reservoir	273
7.4.5	Capacities	273
7.4.6	Area of Submergence (ha)	273
7.4.7	Flood Absorption/Reservoir Operation Policy	274
7.5	Intermittent Storages	276
7.5.1	Selection of Storages	276
7.5.2	Integration of Storages	277
7.6	Land Acquisition-Property Submerged-Rehabilitation	279
	<b>Chapter-8 Irrigation Planning and Command Area Development</b>	
8.0	General	281
8.1	Existing/Proposed Irrigation Facilities in the Proposed Project Command Area	282
8.1.1	Existing Irrigation Facilities	282
8.1.2	Proposed Irrigation Facilities in the Proposed Project Command Area	283
8.1.2.1	Command Area Proposed En-route the Link Canal	283
8.2	Existing Cropping Pattern	287
8.2.1	Existing Area under Rainfed Cultivation	287
8.2.1.1	Rainfall during Monsoon	293
8.2.1.2	Rainfall during Non-monsoon	294
8.2.2	Net Increase in the Irrigation Facilities due to	296

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
	Link Project	
8.3	Soil Surveys	296
8.3.1	Soil Capability Classification	298
8.3.2	Land Irrigability Classification	298
8.4	Agro-Climatic Conditions	299
8.4.1	Rainfall	299
8.4.2	Temperature	300
8.4.3	Humidity	301
8.4.4	Sunshine	301
8.4.5	Wind Velocity	302
8.4.6	Evaporation	303
8.4.7	Cloud cover	304
8.4.8	Frost Free Days	305
8.5	Proposed Cropping Pattern	305
8.5.1	Approved Cropping Pattern	305
8.5.2	Cropping Pattern adopted under the Link Project	305
8.5.3	Proposed Irrigation Facilities	309
8.5.4	Scope for Double & Multiple Cropping Pattern and Change in Cropping Pattern	311
8.5.4.1	Soils	311
8.5.4.1.1	Agro-Climatic Conditions	311
8.5.4.2	Water and other Inputs like Seeds, Fertilizers, Weedicides and Pesticides	311
8.5.4.3	Irrigated Crops in the Adjoining Area	312
8.5.4.4	Attitude of Farmers towards Modern Irrigated Agricultural Practices	312
8.6	Crop Water Requirement	312
8.6.1	Monthly Water Requirement for Irrigation	314
8.7	Water Planning	315
8.7.1	Surface Water	315
8.7.1.1	Water Availability	315
8.7.1.2	Total Irrigation Requirement under the Link Project	316
8.7.1.3	Domestic & Industrial Water Supply	316
8.7.1.4	Transmission Losses	317

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
8.7.1.5	Environmental Releases	317
8.7.1.6	Evaporation Losses	318
8.7.1.7	Total Water Demand of the Link Project	318
8.7.1.8	Working Tables	319
8.7.1.9	Designed Head Discharge of the Link Canal	319
8.7.2	Ground Water	319
8.7.2.1	Ground Water Quality	319
8.7.2.2	Conjunctive Use / Ground Water Support	321
8.8	Command Area Drainage	321
8.9	Water Course / Field Channels	322
8.10	Water Management	322
8.10.1	Review and Evaluation of Existing System of Operation and Distribution in the Command and/or in some Adjoining Projects, if any	322
8.10.2	Proposals for Participatory Irrigation Management Including Formation of Water Users Association	323
8.10.3	Scope of Introduction of Modern Technology Like Sprinklers, Drip Irrigation etc.	324
8.10.4	Existing Practice of Department of Agriculture for Popularizing Micro Irrigation	324
8.10.5	Facilities for Training the Operation and Maintenance Personnel at Different Levels of Management and Farmers-Adequacy of Existing Facilities and Proposals for Augmentation	324
8.10.6	Existing Extension Activity and Proposals for its Improvement	325
8.11	Agricultural Support Services	325
8.11.1	Agricultural Marketing	325
8.11.2	Development of Horticulture	325
8.11.3	Organic Farming	325
8.11.4	Minimum Support Price	326
8.11.5	Crop Insurance	326
8.11.6	Agricultural Credit	326
8.11.7	Use of Improved Seeds	327
8.12	Command Area	327

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
8.12.1	Command Area Details	327
8.12.1.1	Location	327
8.12.1.2	Classification of Land (Forest, Grass Land, Cultivable Land, Cultivable Waste, Barren Land)	328
8.12.1.3	Size of Land Holding	329
8.12.1.4	Climate of Command Area	329
8.12.1.5	Irrigation	330
8.12.1.6	Socio-economic Aspects	331
8.12.1.7	Infrastructure Facilities	332
8.12.1.8	Topography and Soils	337
8.12.1.9	Ground Water and Drainage	338
8.12.1.10	Agriculture	340
8.12.1.11	Farmer's Attitude towards Improved Agricultural Practices	342
8.12.1.12	Identification of Problems in En-route Command Area	343
8.12.1.13	Proposed Cropping Pattern with Justification based on Land Irrigability Classification, Agro Climatic Conditions Developed, Irrigated Cropping Pattern in Adjoining Projects / Areas etc.	344
8.12.1.14	Land Development Work Proposals	344
8.12.1.15	Ayacut Roads	345
8.12.1.16	Benefits	345
	<b>Chapter-9 Power</b>	
9.0	General	352
9.1	Status of Power Development in Maharashtra	352
9.1.1	Available Generating Capacity (MW) in Maharashtra State	352
9.1.2	Available Generating Capacity in the State(from different sources –Category wise)	353
9.1.3	Present Status of Utilisation of Power	354
9.1.4	Capacity Addition	355
9.2	Power Requirement	356
9.2.1	Power Requirement for Main Link Canal	356
9.2.2	Power Requirement for Branch Canals	358

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
9.2.3	Anticipated Requirements of Energy (MU) and Peak Load (MW)	358
9.3	Future Plans of Power Development in the State	359
9.3.1	Schemes under Construction/Expansion with Location	359
9.3.2	New Schemes Sanctioned	360
9.3.3	Justification of the Scheme-Shortfall/Surplus and Proposals to meet the Shortfall/Disposal of Surplus Energy	360
9.3.3.1	Demand and Supply of Electricity	360
9.3.3.2	Energy Conservation	361
9.3.4	Status of Present Proposal of Wainganga (Gosikhurd) - Nalganga (Purna Tapi) Link Project in Overall Planning	361
9.4	Assessment of Power Benefits of the Proposed Project	362
9.4.1	Canal Top Solar Power (PV) Plants along the Proposed Link Canal	362
9.4.1.1	Canal Top Solar Power	362
9.4.1.2	Detailed Costing of the Canal Top Solar Project	363
9.4.1.3	Financial Analysis	364
9.5	Transmission System	364
9.6	Comparison of Total Cost of the Project with any Other Viable Category	364
9.7	Power Requirement for Construction and Proposed Supply Arrangement.	365
9.7.1	Effect of Wainganga (Gosikhurd) – Nalganga (Purna Tapi) Link Project on Power Scenario of the State	365
9.8	Economic Evaluation	367
9.9	Power Required for Lifting Arrangements	367
	<b>Chapter - 10 Construction Program, Man Power and Plant Planning</b>	
10.0	General	368
10.1	Objective of the Project	368
10.2	Main Project Components	369

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
10.3	Basis for Study	370
10.3.1	General	370
10.3.2	Construction Material Sources	371
10.3.3	Basic Considerations	373
10.3.3.1	Scheduled Working Hours	373
10.3.3.2	Construction Programme	374
10.4	Construction Methodology and Equipment Planning	375
10.4.1	Wainganga –Nalganga Link Canal	375
10.4.1.1	Main Canal Excavation	376
10.4.1.2	Pipe Lines	377
10.4.1.3	Tunnels	378
10.4.1.4	Lifts	379
10.4.1.5	Enroute Storages	381
10.4.1.6	Head Works and Outfall Points	381
10.4.2	Fill Placement	382
10.4.3	Concreting in the Project	382
10.4.4	Proposed Construction Methods	382
10.5	Deployment Schedule	385
10.6	Manpower Planning	385
10.6.1	Organisation Setup	385
10.7	Year Wise Allocation of Cost	387
	<b>Chapter - 11 Environment Impact Assessment and Environment Management Plan</b>	
11.0	General	388
11.1	The Proposed Project	389
11.1.1	Project Background	389
11.1.2	Project Justification	390
11.1.3	Project Description	392
11.2	Study Area	393
11.3	Legal Status of the Project	393
11.4	Baseline Environmental Data	396
11.4.1	Air Environment	396
11.4.1.1	Ambient Air Quality	396

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
11.4.1.2	Noise Environment	399
11.4.1.3	Meteorology	401
11.4.2	Water Quality	402
11.4.2.1	Surface Water Quality Monitoring	402
11.4.2.2	Ground Water Quality Monitoring	404
11.4.3	Land Environment	409
11.4.3.1	Land Use	409
11.4.3.2	Mineral Deposits	410
11.4.3.3	Historic / Archaeological Monuments	411
11.4.3.4	Geology	411
11.4.3.5	Soils	412
11.4.4	Terrestrial Ecology	413
11.4.4.1	Delineation of Flora in Study Area	413
11.4.4.2	Status of Fauna	413
11.4.4.3	Status of Fish Fauna	413
11.4.5	Public Health	414
11.4.5.1	Medical and Health Facilities in the Project Command Area	414
11.4.5.2	Drinking Water Supply	415
11.4.5.3	Sanitation	416
11.4.5.4	Water Borne and Communicable Diseases	416
11.5	Environmental Impact Assessment	417
11.5.1	Impacts on Air Environment	417
11.5.1.1	Impact on Air Quality	417
11.5.1.2	Impacts on Noise Environment	418
11.5.2	Impacts on Water Resources and Quality	418
11.5.3	Impacts on Land Environment	422
11.5.4	Impact on Biological Environment	424
11.5.4.1	Terrestrial Environment	424
11.5.4.1.1	Impacts on Forest Cover	424
11.5.4.2	Impacts on Wildlife	425
11.5.4.3	Impacts on Aquatic Ecology	426
11.5.4.4	Impacts on Socio-Economic Environment	427
11.5.5	Impacts on Micro Climate	429

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
11.5.6	Greenhouse Gas Emissions	429
11.6	Environmental Management Plan (EMP)	430
11.6.1	Pollution Control at Construction Sites	430
11.6.1.1	Air Pollution Control	430
11.6.1.2	Noise Control Measures	433
11.6.2	Water Pollution	434
11.6.3	Land Management Plan	434
11.6.3.1	Disposal of Muck and Reclamation of Muck Disposal Sites	434
11.6.3.2	Restoration Plan for Quarry sites	435
11.6.3.3	Restoration of Colony and Office Complex	438
11.6.4	Biodiversity Conservation and Management Plan	439
11.6.4.1	Compensatory Afforestation	439
11.6.4.2	Biodiversity Management Plan	439
11.6.5	Green Belt Development Plan	442
11.6.6	Environmental Management in Labour Camps	443
11.6.7	Public Health	444
11.6.8	Catchment Area Treatment Plan	445
11.6.8.1	Data Acquisition	445
11.6.8.2	Estimate of Soil loss using Silt Yield Index (SYI) Method	446
11.6.8.3	Catchment Area Treatment Measures	446
11.6.8.4	Silt Transfer	446
11.6.9	Command Area Development/Management	447
11.6.10	Impact on Water Quality Downstream of Storage Tanks	448
11.6.11	Disaster Management Plan	448
11.6.12	Energy Conservation Measures	449
11.6.12.1	Energy Conservation during construction Phase	449
11.6.12.2	Energy Conservation during Operation Phase	450
11.6.13	Environmental Monitoring Programme	450
11.6.14	Cost of Environmental Management Plan	453

	<b>Chapter - 12 Socio-Economic Studies and Resettlement and Rehabilitation Plan</b>	
12.0	Introduction	455
12.1	Socio-Economic Profile and Survey	456
12.1.1	Regional Profile from the Available Secondary Data	457
12.1.1.1	Demography	458
12.1.1.2	Livestock and Poultry	459
12.1.1.3	Agriculture	461
12.1.1.4	Literacy	461
12.1.2	Salient Features of the Link	462
12.1.3	Sample Design and Methodology	463
12.1.3.1	Selection of Villages	464
12.1.3.2	Selection of Households	464
12.1.4	Questionnaire	464
12.1.5	Profile of the Study Area	464
12.1.5.1	Nagpur District	469
12.1.5.2	Wardha District	478
12.1.5.3	Amravati District	485
12.1.5.4	Yeotmal District	492
12.1.5.5	Akola District	492
12.1.5.6	Buldhana District	500
12.1.6	Perception about the Project	502
12.2	Impact of Wainganga (Gosikhurd)-Nalganga (Purna Tapi) Link	502
12.2.1	Short Term Impact of the Link Project	503
12.2.2	Long Term Impact of the Link Project	503
12.2.3	Social Impact Assessment	504
12.2.3.1	Impacts Due to Land Acquisition	504
12.3	Rehabilitation and Resettlement	504
12.3.1	Assessment of Economic Loss Due to Displacement	505
12.3.1.1	Land under Submergence	505
12.3.1.2	Project Affected Community	506

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
12.3.2	People's Perception towards Rehabilitation Package	507
12.3.3	Rehabilitation and Resettlement Package	507
12.3.3.1	Measures for Resettlement	507
12.3.3.2	Measures for Rehabilitation	511
12.3.4	Local Area Development Plan	511
12.3.5	Monitoring and Evaluation	512
	<b>Chapter – 13 Cost Estimate, Benefit Cost Ratio and Financial Aspects</b>	
13.0	General	513
13.1	Classification of Units	515
13.1.1	Unit – I : Head Works	517
13.1.1.1	A. Direct Charges	517
13.1.1.2	B. Indirect Charges	521
13.1.2	Unit – II : Canal System	521
13.1.2.1	A. Direct Charges	522
13.1.2.2	B. Indirect Charges	530
13.1.3	Unit – III : Hydroelectric Installation	530
13.1.4	Unit–IV: Navigation	530
13.1.5	Unit–V: Water Supply Works	530
13.1.6	Unit–VI: Command Area Development	530
13.2	Revenues	531
13.2.1	Yearly Programme of Development with respect to the Date of Starting of Construction of the Project	531
13.2.2	Sources of Revenue	531
13.2.2.1	Irrigation benefit	531
13.2.2.2	Water charges (irrigation service fee)	532
13.2.2.3	Sale for Drinking and Industrial water supply	533
13.2.2.4	Pisciculture	535
13.2.2.5	Animal husbandry	538
13.2.2.6	Revenue from Hydro-power	539
13.2.2.7	Navigation	539
13.2.2.8	Canal bank plantation	539

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
13.2.2.9	Other Sources: Tourism	541
13.2.3	Concession in Water Rates (Irrigation), Cargo and Passenger Rates, etc.	541
13.2.4	Administrative Charges for Supply of Water and Collection of Revenues etc.	542
13.2.5	If the Area to be Irrigated is Prone to Scarcity, the Expenditure Normally Incurred to Redress the Scarcity	542
13.2.6	Year in which Revenue Would Start Accruing from Various Sources Counting from First Year of Construction	542
13.2.7	Total Income from Various Sources	542
13.2.8	Details of Staff Proposed for Collection of Revenues and its Basis	543
13.2.9	Net Revenue Expected from Different Components of Project	543
13.3	Annual Cost	543
13.4	Benefit-Cost ratio	544
13.5	Internal rate of return (IRR)	544
13.6	Benefit-Cost Ratio for Flood Control Component of Projects	545
13.7	Benefits Other than those Considered in the Benefit-Cost Ratio and Internal Rate of Return	545
	<b>Chapter - 14</b> <b>Other Aspects of the Project</b>	
14.1	Foreign Exchange Element	546
14.2	Fixing of Sill Level/Bed Level of the Canal Head Regulator at Gosikhurd	546
14.3	Fixing of Outfall Level of the Link Canal vis-à-vis FRL of Nalganga Reservoir	546
14.4	Revenue	547
14.4.1	Revenue from Irrigation	547
14.4.2	Revenue from Power	548
14.4.3	Revenue from Domestic Water Supply	548
14.4.4	Revenue from Industrial Water Supply	548
14.4.5	Revenue from Animal Husbandry	548
14.4.6	Revenue from Fisheries	549
14.4.7	Revenue from Canal Plantation	549

<b>Para No.</b>	<b>Particulars</b>	<b>Page No.</b>
14.5	Financial Resources	549
14.6	Future Utilisation of Facilities Created (Buildings)	550
14.7	Legal Aspects of Wainganga (Gosikhurd) - Nalganga (Purna Tapi) Link Project	551
14.7.1	Effect of Wainganga (Gosikhurd) - Nalganga (Purna Tapi) Link on the Territory of other States	551
14.7.2	Existing Inter-state Agreement on Sharing of Water	552
14.8	Sharing of Water, Power and Other Benefits	552
14.9	Public Co-operation and Participation	552
14.10	Public Awareness	553
	<b>List of Abbreviations</b>	

**Volume – II**  
**Annexures of Main Report**

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
1.1	Copy of letter No. Inter Links River-2009/23(65/09)/WRI dated 10.06.2009 from Secretary(WR), Govt. of Maharashtra in respect of 20 Intra-State links of Maharashtra	1
1.2	Water balance scenario of basins/sub basins in the project area	3
1.3	Land use statistics of the districts falling in Vidarbha for the year 2015 -16(estimated)	4
1.4	Area under crops for the year 2017-18 in Vidarbha of Maharashtra	5
1.5	Area of irrigated crops for the year 2000-01 in Vidarbha of Maharashtra	6
1.6	Drought prone areas in Vidarbha	7
1.7	Salient features of intra-state link projects proposed by Govt. of Maharashtra	9
1.8	Copy of Letter No. Misc.2013/386/2013/WRI dated 06.04.2015 from Chief Engineer (WR) & Joint Secretary, Water Resources Department, Mumbai	12

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
3.1	Extract of “Annexure –B” of GWDT Award	13
3.2	Comments of erstwhile combined Andhra Pradesh on PFR of Wainganga (Gosikhurd)-Nalganga (Purna-Tapi) Intra State Link Project of Maharashtra -2009 and replies of NWDA thereon.	22
4.1.1	Details of TBM /TP Pillars fixed along the canal alignment from Gosikhurd to Lower Wardha (RD 0 km to RD 167.90 km)	24
4.1.2	Details of TBM /TP Pillars fixed along the canal alignment from Lower Wardha to Katepurna (RD 167.90 km to 298.63 km)	27
4.1.3	Details of TBM /TP Pillars fixed along the canal alignment from Katepurna to Nalganga (RD 298.63 km to 426.54 km)	29
4.2.1	Statement of RDs and Bearings from Gosikhurd to Lower Wardha (RD 0 km to RD 167.90 km)	31
4.2.2	Statement of RDs and Bearings from Lower Wardha to Katepurna (RD 167.90 km to 298.63 km)	33
4.2.3	Statement of RDs and Bearings from Katepurna to Nalganga (RD 298.63 km to 426.54 km)	35
4.3.1	List of Cross Drainage/Cross Masonry Structures/Lift Points from Gosikhurd to Lower Wardha (RD 0 km to RD 167.90 km)	37
4.3.2	List of Cross Drainage/Cross Masonry Structures/Lift Points from Lower Wardha to Katepurna (RD 167.90 km to 298.63 km)	42
4.3.3	List of Cross Drainage/Cross Masonry Structures/Lift Points from Katepurna to Nalganga (RD 298.63 km to 426.54 km)	45
4.4	Mineral survey report by GSI (for original alignment from Gosikhurd to Nalganga)	50
4.5	Mineral survey report by GSI (for modified alignment from Lower Wardha to Nalganga)	52
5.1.1	Monthly normal Maximum and Minimum Temperature (1981-2010) at different IMD observatories in Wainganga Sub-basin upto Gosikhurd	55
5.1.2	Monthly normal Relative Humidity (1981-2010) at different IMD observatories in Wainganga Sub-	56

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	basin up to Gosikhurd	
5.1.3	Monthly normal Wind speed (1981-2010) at different IMD observatories in Wainganga Sub-basin upto Gosikhurd	57
5.1.4	Monthly normal Cloud cover (1981-2010) at different IMD observatories in Wainganga Sub-basin upto Gosikhurd	58
5.2.1	Monthly normal Maximum and Minimum Temperature (1981-2010) at different IMD observatories in Purna Tapi Sub-basin	59
5.2.2	Monthly normal Relative Humidity (1981-2010) at different IMD observatories in Purna Tapi Sub-basin	60
5.2.3	Monthly normal Wind speed (1981-2010) at different IMD observatories in Purna Tapi Sub-basin	61
5.2.4	Monthly normal Cloud cover (1981-2010) at different IMD observatories in Purna Tapi Sub-basin	62
5.3	Water Quality (Seasonal Average) for the year 2014-15 at Pauni G&D site, Dist. Bhandara	63
5.4	Raingauge stations, period of consideration and source of data in the catchment of Wainganga sub-basin upto Gosikhurd dam site	64
5.5.1	Thiessen Weights of Rain Gauge Stations upto Pench Pick up weir in the Pench sub catchment	66
5.5.2	Monsoon weighted average rainfall upto Pench Pick-up weir (1994-2013) in Pench sub catchment	67
5.5.3	Thiessen Weights of Rain Gauge Stations in the Pench sub catchment	68
5.5.4	Monsoon weighted average rainfall of Pench sub catchment (1970-2014)	69
5.6.1	Thiessen Weights of Rain Gauge Stations upto Ramakona G&D site (CWC) in Kanhan sub catchment	70
5.6.2	Monsoon weighted average rainfall upto Ramakona G&D site (1994-2013) in Kanhan sub catchment	71
5.6.3	Thiessen Weights of Rain Gauge Stations in Kanhan sub catchment	72
5.6.4	Monsoon weighted average rainfall of Kanhan sub catchment (1970 to 2014)	73
5.7.1	Thiessen Weights of Rain Gauge Stations upto Rajegaon G&D site (CWC) in Bagh sub catchment	74

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
5.7.2	Monsoon weighted rainfall upto Rajegaon G&D site (1994-2013) in Bagh sub catchment	75
5.7.3	Thiessen Weights of Rain Gauge Stations in Bagh sub catchment	76
5.7.4	Monsoon weighted average rainfall of Bagh sub catchment (1970-2014)	77
5.8.1	Thiessen Weights of Rain Gauge Stations upto Kardha Gauge site in Wainganga sub catchment	78
5.8.2	Monsoon Weighted Average Rainfall upto Kardha Gauge station (1994-2013) in Wainganga sub catchment	79
5.8.3	Thiessen Weights of Rain Gauge Stations in Wainganga sub catchment	80
5.8.4	Monsoon weighted rainfall of Wainganga sub catchment (1970-2014)	81
5.9	Monthly Yield at Navgaon Khairy (Pench pick up weir) on Pench river for the period from 1994-2013	82
5.10	Observed Monthly Discharge data at Ramakona G&D site on Kanhan river for the period from 1994-2013	84
5.11	Observed Monthly Discharge data at Rajegaon G&D site on Bagh river for the period from 1994-2013	85
5.12	River gauge data of Wainganga river at Kardha station for the period from 1994-95 to 2013-14	87
5.13	Monthly Trapped Yield at Pench HEP (Upstream of Pench pick up weir) in Pench sub catchment	88
5.14	Tank wise yearly utilisation upstream of Ramakona G&D site in Kanhan sub catchment	89
5.15	Monsoon U/S Abstraction(including irrigation releases) from completed Major, Medium, Minor, State sector & Local sector projects in Bagh sub catchment upto Rajegaon G & D site	90
5.15.1	Monsoon U/s Abstraction from Completed Major and Medium projects in Maharashtra portion of Bagh sub catchment upto Rajegaon G & D site	93
5.15.2	Monsoon U/s Abstraction from Completed Medium projects in Madhya Pradesh portion of Bagh sub catchment upto Rajegaon G & D site	96
5.15.3	Computation of Regeneration in Maharashtra portion of Bagh sub catchment upto Ralegaon G &	99

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	D site	
5.15.4	Computation of Regeneration in Madhya Pradesh portion of Bagh sub catchment upto Rajegaon G & D site	102
5.16	Monsoon U/S Abstraction from completed Major, Medium, Minor, State sector and Local sector projects in Wainganga sub catchment upto Kardha G & D site	105
5.16.1	Monsoon trapped yield (including irrigation releases) in completed Major and Medium projects in Maharashtra portion of the Wainganga sub catchment up to Kardha gauge site	108
5.16.2	Monsoon U/S Abstractions of completed Major and Medium projects in Madhya Pradesh portion of Wainganga sub catchment up to Kardha Gauge site	111
5.16.3	Computation of Regeneration of Wainganga sub catchment upto Kardha G&D site.	114
5.17	Monsoon Virgin Runoff at Pench pick up weir for the period from 1994-95 to 2013-14 (Pench sub catchment)	116
5.18	Monsoon Virgin Runoff at Ramakona G&D site for the period from 1994-95 to 2013-14 (Kanhana sub catchment)	117
5.19	Monsoon Virgin Runoff at Rajegaon G&D site for the period from 1994-95 to 2013-14 (Bagh sub catchment)	118
5.20	Monsoon Virgin Runoff at Kardha gauge site for the period from 1994-95 to 2013-14 (Wainganga sub catchment)	119
5.21.1	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming linear equation in the form $x_1 = a * x_2 + b$ developed at Pench pick up weir (Pench sub catchment)	120
5.21.2	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming non-linear equation in the form $x_1 = a * x_2^b$ , developed at Pench pick up weir (Pench sub catchment)	122
5.22.1	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming	124

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	linear equation in the form $x_1 = a * x_2 + b$ developed at Ramakona G & D site (CWC) (Kanhana sub-catchment)	
5.22.2	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming non-linear equation in the form $x_1 = a * x_2$ power (b), developed at Ramkona G & D site (CWC) (Kanhana sub-catchment)	126
5.23.1	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming linear equation in the form $x_1 = a * x_2 + b$ developed at Rajegaon site (Bagh sub catchment)	128
5.23.2	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming non linear equation in the form $x_1 = a * x_2$ power (b), developed at Rajegaon site (Bagh sub catchment)	130
5.24.1	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming linear equation in the form $x_1 = a * x_2 + b$ developed at Kardha site (Wainganga sub catchment)	132
5.24.2	Computation of rainfall-runoff relationship by regression analysis for monsoon period assuming non-linear equation in the form $x_1 = a * x_2$ power (b), developed at Kardha site (Wainganga sub catchment)	134
5.25	Percentage of non-monsoon observed flows to virgin monsoon yield at Ramakona G&D site in Kanhana sub catchment	136
5.26	Percentage of non-monsoon observed flows to virgin monsoon yield at Rajegaon G&D site in Bagh sub catchment	137
5.27	Annual Gross Yield series of Pench sub catchment for the period from 1970-71 to 2014-15 based on monsoon R-R relation at Pench pick up weir (non-linear equation).	138
5.28	Annual Gross Yield series of Kanhana sub catchment for the period from 1970-71 to 2014-15 based on monsoon R-R relation at Ramakona (CWC) G & D site (linear equation)	139

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
5.29	Annual Gross Yield series of Bagh sub-catchment for the period from 1970-71 to 2014-15 based on monsoon R-R relation at Rajegaon site (linear equation)	140
5.30	Annual Gross Yield series of Wainganga sub catchment for the period from 1970-71 to 2014-15 based on monsoon R - R relation at Kardha G & D site (non-linear equation)	141
5.31	Annual Gross Yield series in the catchment of Wainganga upto Gosikhurd as per NWDA norms, Yield study of Govt. of Maharashtra and CWC.	142
5.31.1	Annual Gross Yield series in the catchment of Wainganga upto Gosikhurd as per NWDA norms.	143
5.31.2	Annual Gross Yield series in the catchment of Wainganga upto Gosikhurd as per Yield study of Govt. of Maharashtra.	144
5.31.3	Annual Gross Yield series in the catchment of Wainganga upto Gosikhurd as per Yield assessment by CWC.	145
5.32	Surface Water Requirement of Wainganga catchment upto Gosikhurd Dam site	146
5.32.1	Statement showing sub catchment wise share of Madhya Pradesh state.	147
5.32.2	Abstract of Water Use in Maharashtra in Pench sub catchment	148
5.32.3	Abstract of Water Use in Maharashtra in Kanhan sub catchment	149
5.32.3.1	Water use under Major and Medium irrigation projects in Kanhan sub-catchment.	150
5.32.4	Abstract of Water Use in Maharashtra in Bagh sub catchment	151
5.32.4.1	Water use under Major and Medium irrigation projects in Bagh sub catchment	152
5.32.5	Abstract of Water Use in Maharashtra in Wainganga sub catchment	153
5.32.5.1	Water use under Major and Medium irrigation projects in Wainganga sub catchment	154
5.33	Sub-catchment wise and State/District wise domestic and industrial water requirement by 2050	155

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	AD	
5.33.1	Sub catchment wise and State/District wise human population and projection to 2050 AD	156
5.33.2	Sub catchment wise and State/District wise Livestock population and projection to 2050 AD	157
5.34	Computation of regeneration from Major and Medium projects in the catchment of Wainganga upto Gosikhurd dam	158
5.35.1	Annual Net Yield series in Pench sub-catchment of Wainganga upto Gosikhurd dam (Based on yield study of CWC)	159
5.35.2	Annual Net Yield series in Kanhan sub-catchment of Wainganga upto Gosikhurd dam (Based on yield study of CWC)	160
5.35.3	Annual Net Yield series in Bagh sub-catchment of Wainganga upto Gosikhurd dam (based on yield study of CWC)	161
5.35.4	Annual Net Yield series in the Wainganga sub-catchment upto Gosikhurd dam (based on yield study of CWC)	162
5.35.5	Annual Net Yield series in the catchment of Wainganga upto Gosikhurd dam site	163
5.36	Elevation - Area - Capacity table of Gosikhurd reservoir	165
5.37	Ten Daily inflows at Gosikhurd based on observed flows at Pauni G & D site across Wainganga river	166
5.37.1	Observed 10 daily flows at Pauni G&D site across Wainganga river	169
5.38	Annual abstract of Ten daily simulation at Gosikhurd without link diversion	173
5.38.1	10 daily simulation of Gosikhurd reservoir for the period from 1970-71 to 2014-15 (Gosikhurd without link)	174
5.39	Annual abstract of Ten daily simulation at Gosikhurd with link diversion of 1912 Mm <sup>3</sup>	219
5.39.1	10 daily simulation of Gosikhurd reservoir for the period from 1970-71 to 2014-15 (Gosikhurd with link diversion of 1912 Mm <sup>3</sup> )	220
6.1	Design of Head regulator at Off-take of Gosikhurd reservoir	265

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
6.2	Design of Vertical turbine pumps at RD 2.4 km	287
6.3.1	Head loss statement of the reach between Gosikhurd and Lower Wardha	291
6.3.2	Head loss statement in the reach between Lower Wardha and Katepurna	366
6.3.3	Head loss statement in the reach between Katepurna to Nalganga	417
6.4	Cut off Statement based on storage capacities	474
6.5	Design of Tunnel at RD 73.50 km to 76.817 km	478
6.6	Computation of pipe line thickness ( RD 27405 to 28615 km)	488
6.7.1	Computation of design flood at RD 13.625 km on Amb Nadi	493
6.7.2	Computation of design flood at RD 332.375 km (Nirguna River)	498
6.8.1	100 year flood curve for Wainganga catchment	503
6.8.2	100 year design flood curve for Tapi catchment	504
6.9	Hydraulic Design of Cross Drainage Structures	505
6.10	Design of Aqueduct on Undri river at RD 37.65 km	523
6.11	Design of Super Passage at RD 161.24 km	547
6.12	Design of canal syphon RD 13.65 km on Amb Nadi	569
6.13	Design of Cross regulator at RD 195.45 km	594
6.14	Design of Double lane Road bridge at RD 25.77 km	624
6.15	Hydraulic design of pooled step cascades at RD 302.93 km	631
6.16	Hydraulic design of fall at RD 426.43 km	637
6.17	Design of under tunnel at RD 29.98 km	641
7.1	Salient features of Gosikhurd project	655
7.2	Salient features of Lower Wardha project	657
7.3	Salient features of Katepurna project	659
7.4	Salient features of Nalganga project	660
7.5	Details of enroute storages	662
8.1	Approved Cropping Pattern by the State Agriculture Department	666
8.2	Proposed Cropping Pattern by NWDA	669
8.3	Govt. resolution No. 2015/(44/15)/Irrigation	672

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	Management (Policy) dated 17 Nov. 2016 regarding Sector wise water allocation by Water Resources Department, Govt. of Maharashtra	
8.4	Pipe distribution system in Irrigation Projects- Government of Maharashtra, Water Resources Department Government Resolution No. Irrigation 2015/case no. 24/2015/WR (policy) dated 13 January 2017	674
8.5.1	Computation of crop water requirement based on rainfall data and Potential Evapotranspiration values of Nagpur IMD Station	678
8.5.2	Computation of crop water requirement based on rainfall data and Potential Evapotranspiration values of Yeotmal IMD Station	685
8.5.3	Computation of crop water requirement based on rainfall data and Potential Evapotranspiration values of Amravati IMD Station	693
8.5.4	Computation of crop water requirement based on rainfall data and Potential Evapotranspiration values of Akola IMD Station	697
8.5.5	Computation of crop water requirement based on rainfall data and Potential Evapotranspiration values of Buldhana IMD Station	701
8.6.1	Computation of weighted average delta by climatological approach for the projects located in Nagpur district based on PE and rainfall values of Nagpur	705
8.6.2	Computation of weighted average delta by climatological approach for the projects located in Wardha district based on PE & rainfall values of Yeotmal	706
8.6.3	Computation of weighted average delta by climatological approach for the projects located in Amravati district based on PE & rainfall values of Amravati	707
8.6.4	Computation of weighted average delta by climatological approach for the projects located in Yeotmal district based on PE & rainfall values of Yeotmal	708
8.6.5	Computation of weighted average delta by	709

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	climatological approach for the projects located in Akola district based on PE & rainfall values of Akola	
8.6.6	Computation of weighted average delta by climatological approach for the projects located in Buldhana district based on PE & rainfall values of Buldhana and Approved Cropping Pattern for Jigaon Project	710
8.6.7	Computation of weighted average delta by climatological approach for the Nalganga project located in Buldhana district based on PE & rainfall values of Buldhana	711
8.7.1	Human Population	712
8.7.2	Livestock population	713
8.8	Transmission losses in main canal	714
8.9	Month wise and taluka wise irrigation, domestic and industrial requirement of water	715
9.1	Power requirement of link canal project	718
9.2	Power requirement of branch canals	719
9.3	Detailed Project Report for Canal-Top Solar PV Power Plant on Wainganga (Gosikhurd) – Nalganga (Purna Tapi) Link Project by GERMI, Gandhinagar-Executive Summary	720
10.1	Schedule of Work programme	722
10.2	List of Major Construction Equipments and plants – Abstract of cost	723
10.3	Proposed Organisation Chart for execution of the Project	724
10.4	Abstract of Requirement of Staff	725
10.5	Requirement of Officers/staff(other than field staff)	726
11.1	Minutes of the 94 <sup>th</sup> & 95 <sup>th</sup> Meetings of the Expert Appraisal Committee (EAC) for River Valley and Hydroelectric Projects held on 2 <sup>nd</sup> – 3 <sup>rd</sup> June 2016 and 11 <sup>th</sup> -12 <sup>th</sup> July, 2016	729
11.2	Model TOR for Hydropower Projects (EIA Studies)	732
11.3	Abstract of storage tanks along the link canal	741
11.4	Chemical Analysis of Ground Water Samples in May 2016 by CGWB in the Project Area	745

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
12.1	The Maharashtra Project Affected Persons Rehabilitation Act, 1999 (As modified upto June 2015)	747
13.0	General Abstract	768
13.1	General Abstract of Unit-I Head Works	769
13.1.1	Abstract of cost of reservoir/tanks	770
13.1.2	Abstract of cost of Head regulators	772
13.1.2.1	Cost Estimate of off take Gosikhurd Head regulator	773
13.1.2.2	Cost Estimate of off take Lower Wardha Head regulator	789
13.1.2.3	Cost Estimate of off take Katepurna Head regulator	786
13.2	General Abstract of Unit II - Canal - Main Canal	793
13.2.1	Abstract of cost for land and Rehabilitation and resettlement- B land	795
13.2.1.1	Cost of land acquisition	796
13.2.1.2	Village wise land to be acquired and land values	797
13.2.2	Abstract of cost of tunnels	806
13.2.2.1	Abstract of cost of tunnel from RD 73500 m to 76817 m	807
13.2.2.2	Abstract of cost of tunnel from RD 141450 m to 142226 m	808
13.2.2.3	Abstract of cost of tunnel from RD 150250 m to 156736 m	809
13.2.2.4	Abstract of cost of tunnel from RD 298975 m to 299642 m	810
13.2.2.5	Abstract of cost of tunnel from RD 371525 m to 372375 m	811
13.2.2.6	Abstract of cost of tunnel from RD 406075 m to 407023 m	812
13.2.2.7	Abstract of cost of tunnel from RD 411775 m to 412623 m	813
13.2.3	Abstract cost of lift	814
12.2.3.1	Abstract cost of lift at RD 2400 m to 2904 m	815
12.2.3.2	Abstract cost of lift at RD 20000 m to 20904 m	818
13.2.3.3	Abstract cost of lift at RD 39900 m to 42695 m	821
13.2.3.4	Abstract cost of lift for Branch Canal at RD 115450 m	824

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
13.2.3.5	Abstract cost of lift for Branch Canal at RD 147550 m	827
13.2.3.6	Abstract cost of lift for Branch Canal at RD 150000 m	830
13.2.3.7	Abstract cost of lift at RD 169600 m to 170400 m	833
13.2.3.8	Abstract cost of lift at RD 176900 m to 178100 m	836
13.2.3.9	Abstract cost of lift for Branch Canal at RD 246300 m	839
13.2.3.10	Abstract cost of lift at RD 292850 to 293700 m	842
13.2.3.11	Abstract cost of lift for Branch Canal at RD 377125 m	845
13.2.4	Abstract cost of D - Cost for regulators	848
13.2.4.1	Cost curve of Head Regulator	851
13.2.5	E - Cost of Canal falls	852
13.2.5.1	Cost of Canal falls at RD. 302.98 km	853
13.2.5.2	Cost of Canal falls at RD. 420.00 km	856
13.2.6	F-Cross Drainage Structures-Aqueducts	859
13.2.6.1	Cost curve of Aqueducts	860
13.2.7	F-Cross Drainage Structures-Canal syphon	861
13.2.7.1	Cost curve of canal Syphon	862
13.2.8	F-Cross Drainage Structures-Super passage	863
13.2.8.1	Cost curve of super passage	864
13.2.9	F-Cross Drainage Structures-Under-tunnel	865
13.2.9.1	F-Cross Drainage Structures-Over pass	869
13.2.9.2	Cost curve of Under tunnel	872
13.2.10	G-Cross Masonry structures	873
13.2.10.1	Cost curve of Double lane bridge	878
13.2.11	L- Earth work & Lining	879
13.2.11.1	Abstract of Quantities for earth work, Lining and Land acquisition	882
13.2.11.2	Abstract of cost of Pipelines	886
13.2.11.2.1	Abstract of cost of Pipelines from RD. 27405 m to 28615 m	887
13.2.11.2.2	Abstract of cost of Pipelines from RD. 49650 m to 51587 m	891
13.2.11.2.3	Abstract of cost of Pipelines from RD. 44000 m to	895

<b>Annexure No.</b>	<b>Particulars</b>	<b>Page No.</b>
	44553 m	
13.2.11.2.4	Abstract of cost of Pipelines from RD. 44000 m to 44553 m	899
13.2.11.2.5	Abstract of cost of Pipelines from RD. 83600 m to 87085 m	903
13.2.11.2.6	Abstract of cost of Pipelines from RD. 87700 m to 89519 m	907
13.2.11.2.7	Abstract of cost of Pipelines from RD. 93400 m to 96951 m	911
13.2.11.2.8	Abstract of cost of Pipelines from RD112450 m to 113561 m	915
13.2.11.2.9	Abstract of cost of Pipelines from RD. 257100 m to 257600 m	919
13.2.11.2.10	Abstract of cost of Pipelines from RD. 363875 m to 365573 m	923
13.2.11.2.11	Abstract of cost of Pipelines from RD.380475 m to 380806 m	927
13.2.12	Abstract of cost- M Plantation	931
13.2.13	Abstract of cost -O-Miscellaneous	932
13.2.14	Abstract of cost- R-Communications	935
13.2.15	X- Environment & Ecology	936
13.2.16	Computation of cost of major components of branch canal	938
13.2.16.1	Computation of prorated rate of items for branch canal	940
13.3	Command Area Development	941
13.4	Existing Cropping pattern and Productivity	942
13.4.1	Calculation of Net Benefit before irrigation in link command	950
13.5	Proposed Cropping pattern and Productivity	951
13.5.1	Calculation of Net Benefit after irrigation in link command	959
13.6	Abstract of Submergence area storage tanks and Royalty for fishers	960
13.7	Computation of cost benefits for mini dairy unit	961
13.8	Calculation of Benefit -cost ratio	962
13.9	Internal Rate of Return(IRR)	963

**List of Appendices**  
**Part-A (GSI)**

<b>Appendix No</b>	<b>Title</b>
4.3.1	The Report on the Geological Mapping & Geotechnical Investigations of the Link Project upto Lower Wardha.
4.3.2	The Report on the Geological Mapping & Geotechnical Investigations of the Link Project beyond Lower Wardha.

**Part-B (Other than GSI)**

<b>Appendix No</b>	<b>Title</b>	<b>Page Nos.</b>
4.1.1	The Report on Archaeological Survey by ASI –Report on Original Alignment(Phase-I)	1-22
4.1.2	The Report on Archaeological Survey by ASI –Report on Modified Alignment (Phase-II)	23-42
4.2	Detailed Project Report for Canal-Top Solar PV Power Plant by GERMI	43-184
4.4	The Report on Laboratory Investigations of Rock Samples received from CSMRS, New Delhi.	185-258
4.5.1	The Report on Laboratory Investigations on Soil Samples from Borrow Area along the Canal Alignment upto Wardha River Crossing(Phase-I) received from CSMRS, New Delhi.	259-332
4.5.2	The Report on Laboratory Investigations on Soil Samples from Borrow Area along the Canal Alignment beyond Wardha River Crossing(Phase-II) received from CSMRS, New Delhi.	333-426
4.6	Report on Foundation Investigations of Cross Drainage/Cross Masonry Structures and at Deep Cut/Lift Point (RD 3.3 km) received from CSMRS, New Delhi (For Phase-I)	427-468
4.7.1	Report on the Construction Materials Survey and Laboratory Investigations of Coarse and Fine Aggregate Samples (Phase-I)	469-504
4.7.2	Report on the Construction Materials Survey and Laboratory Investigations of Coarse and Fine	505-542

	Aggregate Samples (Phase-II)	
5.1	Yield Study upto Gosikhurd Project Site by Govt .of Maharashtra	543-590
5.2	Yield Study upto Gosikhurd Project Site by Central Water Commission	591-606
13.1	Cost of Enroute Storage Tanks on Pro - Rata Basis	607-610
13.2	Cost of Pipe Distribution Network excluding Cost of Vena Feeder Pipe	611-612
13.3	Summary of Items and Rates of Earth Work	613-618
13.4	Cost Escalation from April 2017 to March ' 2018' price level	619-620
13.5	Study and Rate Analysis of Escalation in Construction industry	621-632

**List of Appendices in Soft Copy (.pdf)  
(DESIGNS & COST ESTIMATES)**

<b>Appendix No</b>	<b>Title</b>	<b>Page Nos.</b>
6.1.1	Head regulator at Gosikhurd Dam	1-35
6.1.2	Head regulator at Lower Wardha Dam	36-71
6.1.3	Head regulator at Katepurna Dam	72-107
6.2.1	Tunnel at RD 73.500 to 76.817 km	110-123
6.2.2	Tunnel at RD 141.450 to 142.226k m	124-137
6.2.3	Tunnel at RD 150.250 to 156.739 km	138-151
6.2.4	Tunnel at RD 298.975 to 299.642 km	152-165
6.2.5	Tunnel at RD 371.525 to 372.375 km	166-179
6.2.6	Tunnel at RD 406.075 to 407.023 km	180-193
6.2.7	Tunnel at RD 411.775 to 412.623k m	194-207
6.3.1	Lift at RD 2.40 km	208-218
6.3.2	Lift at RD 20.0 km	219-229
6.3.3	Lift at RD 39.90 km	230-239
6.3.4	Lift at RD 115.50 km	240-250
6.3.5	Lift at RD 147.60 km	251-260
6.3.6	Lift at RD 150.00 km	261-270
6.3.7	Lift at RD 169.6 km	271-280
6.3.8	Lift at RD 179.90 km	281-290

<b>Appendix No</b>	<b>Title</b>	<b>Page Nos.</b>
6.3.9	Lift at RD 246.30 km	291-300
6.3.10	Lift at RD 292.90 km	301-310
6.3.11	Lift at RD 377.10 km	311-320
6.4.1	Pipeline RD 27.405 to 28.615 km	321-333
6.4.2	Pipeline RD 44.00 to 44.553 km	334-345
6.4.3	Pipeline RD 49.650 to 51.587 km	346-358
6.4.4	Pipeline RD 60.05 to 69.833 km	359-371
6.4.5	Pipeline RD 83.600 to 87.085 km	372-384
6.4.6	Pipeline RD 87.700 to 89.519 km	385-397
6.4.7	Pipeline RD 93.400 to 96.951 km	398-410
6.4.8	Pipeline RD 112.450 to 113.561 km	411-423
6.4.9	Pipeline RD 257.10 to 257.60 km	424-435
6.4.10	Pipeline RD 363.875 to 365.573 km	436-448
6.4.11	Pipeline RD 370.475 to 370.806 km	449-461
6.5.1	Canal fall at RD 302.98 km	462-474
6.5.2	Canal fall at RD 420.00 km	475-484
6.6.1	Aqueduct at RD 37.65 km	485-516
6.6.2	Aqueduct at RD 109.30 km	517-549
6.6.3	Aqueduct at RD 175.40 km	550-580
6.6.4	Aqueduct at RD 204.92 km	581-609
6.6.5	Aqueduct at RD 315.00 km	610-640
6.6.6	Aqueduct at RD 362.0 km	641-668
6.7.1	Canal syphon at RD 13.65 km	671-701
6.7.2	Canal syphon at RD 121.1 km	702-731
6.7.3	Canal syphon at RD 160.50 km	732-762
6.7.4	Canal syphon at RD 186.8 km	763-792
6.7.5	Canal syphon at RD 327.1 km	793-818
6.7.6	Canal syphon at RD 418.1 km	819-845
6.8.1	Super Passage at RD 161.30 km	848-875
6.8.2	Super Passage at RD 266.25 km	876-900
6.8.3	Super Passage at RD 291.70 km	901-924
6.8.4	Super Passage at RD 300.60 km	925-948
6.8.5	Super Passage at RD 410.3 km	949-971
6.9.1	Under tunnel at RD 29.98 km	974-991
6.9.2	Under tunnel at RD 100.83 km	991-1008
6.9.3	Under tunnel at RD 114.608 km	1008-1024
6.9.4	Under tunnel at RD 123.773 km	1024-1042
6.9.5	Under tunnel at RD 281.536 km	1042-1058
6.9.6	Under tunnel at RD 334.405 km	1058-1076

<b>Appendix No</b>	<b>Title</b>	<b>Page Nos.</b>
6.9.7	Under tunnel at RD 393.239 km	1076-1092
6.9.1	Under tunnel at RD 29.98 km	974-991
6.9.2	Under tunnel at RD 100.83 km	991-1008
6.9.3	Under tunnel at RD 114.608 km	1008-1024
6.9.4	Under tunnel at RD 123.773 km	1024-1042
6.9.5	Under tunnel at RD 281.536 km	1042-1058
6.9.6	Under tunnel at RD 334.405 km	1058-1076
6.9.7	Under tunnel at RD 393.239 km	1076-1092
6.10.1	Double lane road Bridge at RD 25.75 km	1095-1110
6.10.2	Double lane road Bridge at RD 138.35 km	1111-1124
6.10.3	Double lane road Bridge at RD 196.605 km	1125-1139
6.10.4	Double lane road Bridge at RD 285.05 km	1140-1154
6.10.5	Double lane road Bridge at RD 348.775 km	1155-1169
6.10.6	Double lane road Bridge at RD 419.525 km	1170-1183
6.11.1	Abstract of Cost of earth work & lining	1186-1188
<b>Canal earth work in Cutting and Emabnkment portions</b>		
6.11.2	Reach : 150.050 to 167.900 km	1189-1403
6.11.3	Reach : 167.900 to 298.63 km	1404-1567
6.11.4	Reach : 298.63 to 426.54 km	1568-1733
6.11.5	Abstract of Quantities for earth work, Lining and Land acquisition	1734-1737
6.11.6	Abstract of Quantities for pressure relief valves and polythene sheet	1738
6.11.7	List of village comes across the link canal alignment	1739-1744
<b>Design Flood Estimation of</b>		
6.12.1	AMB river at RD 13.63 km	1745-1749
6.12.2	Stream at RD 36.904 km	1750-1753
6.12.3	Undri river at RD 37.68 km	1754-1758
6.12.4	Dhopanadi at RD 50.515 km	1759-1763
6.12.5	Sashimar Nala at RD 68.42 km	1764-1767
6.12.6	Kanola bara at RD79.72 km	1768-1772
6.12.7	Bor River at RD 109.31 km	1773-1776
6.12.8	Panchadhara river at RD 121.40 km	1777-1781
6.12.9	Nala of Panchadhara river at RD 136.1 km	1782-1785
6.12.10	Dham river at RD 137.85 km	1786-1789
6.12.11	Stream at RD 300.625	1791-1794
6.12.12	Indra Pur river at RD 305.125 km	1795-1798
6.12.13	Stream at RD 307.875 km	1799-1802
6.12.14	Murna river at RD 315.075 km	1803-1807

<b>Appendix No</b>	<b>Title</b>	<b>Page Nos.</b>
6.12.15	Singar river at RD 322.025 km	1808-1812
6.12.16	Nirguna river at RD 332.525 km	1813-1817
6.12.17	Mun river at RD 344.675 km	1818-1822
6.12.18	Torna river at RD 348.525 km	1823-1827
6.12.19	Mahesh river at RD 365.325 km	1828-1832
6.12.20	Gyan ganga river at RD 398.975 km	1833-1837
6.12.21	Sidda Ganga river at RD 401.725 km	1838-1842
6.12.22	Stream at RD 417.625 km	1843-1846
6.12.23	Visva Ganga river at RD 418.6 km	1847-1851

**Volume – IV**  
**Drawings by ID, NWDA, Nagpur**

<b>Plate No.</b>	<b>Title</b>	<b>Drawing No.</b>
1.1	Index map of W-N link project	Drawing No. W-N link/1.1
2.1	Godavari basin map	Drawing No. W-N link/2.1
2.2	Tapi Basin map	Drawing No. W-N link/2.2
2.3.1	Geological Map of project area : Wainganga to Lower Wardha	Drawing No. W-N link/2.3.1
2.3.2	Geological map of project area : Lower Wardha to Katepurna	Drawing No. W-N link/2.3.2
2.3.3	Geological map of the project: Katepurna to Nalganga	Drawing No. W-N link/2.3.3
4.1	Line diagram of GTS BM connectivity with link alignment	Drawing No. W-N link/4.1
4.2	Contour Plan of Gosikhurd reservoir	Drawing No. W-N link/4.2
4.3	Layout plan of Gosikhurd project	Drawing No. W-N link/4.3
4.4.1 to 4.4.21	Map showing the link alignment	Drawing No. W-N link/4.4.1 to 4.4.21
4.5.1 to 4.5.173	Contour plan and L-Section of W-N link canal	Drawing No. W-N link/4.5.1 to 4.5.173
4.6.1	Condensed L-section of W-N link alignment from RD. 0 to 167.900 km	Drawing No. W-N link/4.6.1
4.6.2	Condensed L-section of W-N link alignment from RD. 167.900 km to 298.626 km	Drawing No. W-N link/4.6.2
4.6.3	Condensed L-section of W-N link alignment from RD. 298.626 km to	Drawing No. W-N link/4.6.3

<b>Plate No.</b>	<b>Title</b>	<b>Drawing No.</b>		
	426.542 km			
4.7.1	Contour plan, L.S and C.A. Plan of Amb river @ RD. 13.631 km	Drawing link/4.7.1	No.	W-N
4.7.2	Contour plan, L.S and C.A. Plan of Vena river @ RD. 63.450 km	Drawing link/4.7.2	No.	W-N
4.7.3	Contour plan, L.S and C.A. Plan of Krishna Nala @ RD.79.715 km	Drawing link/4.7.3	No.	W-N
4.7.4	Contour plan, L.S and C.A. Plan of Bor river @ RD.109.312 km	Drawing link/4.7.4	No.	W-N
4.7.5	Contour plan, L.S and C.A. Plan of Dham river @ RD.137.850 km	Drawing link/4.7.5	No.	W-N
4.8	Communication Map of the project	Drawing No. W-N link/4.8		
4.9	Soil map of the command area under link project	Drawing No. W-N link/4.9		
4.10	Map showing location of Soil Sample Pits of link Project	Drawing No. W-N link/4.10		
4.11	Map showing location of Drill Holes along the link alignment	Drawing No. W-N link/4.11		
4.12	Quarry map of the link project	Drawing No. W-N link/4.12		
6.1(1/4)	Plan of proposed Head Regulator at Gosikhurd offtake	Drawing link/6.1(1/4)	No.	W-N
6.1(2/4)	Sectional Elevation of proposed Head Regulator at Gosikhurd offtake	Drawing link/6.1(2/4)	No.	W-N
6.1(3/4)	Cross - Sectional Elevations of proposed Head Regulator at (Gosikhurd) offtake	Drawing link/6.1(3/4)	No.	W-N
6.1(4/4)	Head Regulator Service Gate General Installation	Drawing link/6.1(4/4)	No.	W-N
6.2(1/2)	Plan & Sectional Elevation of Pump House at RD 2.400 Km	Drawing link/6.2(1/2)	No.	W-N
6.2(2/2)	Sectional Elevation of Pump House at RD 2.400 Km	Drawing link/6.2(2/2)	No.	W-N
6.3(1/6)	Typical Sections of Link Canal in Embankment at RD 45.650 Km	Drawing link/6.3(1/6)	No.	W-N
6.3(2/6)	Typical Sections of Link Canal in Embankment at RD 363.225 Km	Drawing link/6.3(2/6)	No.	W-N
6.3(3/6)	Typical Sections of Link Canal in Embankment at RD 182.750 Km	Drawing link/6.3(3/6)	No.	W-N
6.3(4/6)	Typical Sections of Link Canal in Embankment at RD 372.875 Km	Drawing link/6.3(4/6)	No.	W-N

<b>Plate No.</b>	<b>Title</b>	<b>Drawing No.</b>		
6.3(5/6)	Typical Sections of Link Canal in Deep and Full Cutting	Drawing link/6.3(5/6)	No.	W-N
6.3(6/6)	Typical Sections of Link Canal in Deep and Full cutting	Drawing link/6.3(6/6)	No.	W-N
6.4(1/4)	Typical Construction Tunnel Portal Excavation Support Details of Entry and Exit Portal	Drawing link/6.4(1/4)	No.	W-N
6.4(2/4)	Tunnel Support System and Grouting Details	Drawing link/6.4(2/4)	No.	W-N
6.4(3/4)	Tunnel Support System and Grouting Details	Drawing link/6.4(3/4)	No.	W-N
6.4(4/4)	Typical Concrete Lining and Grouting Details	Drawing link/6.4(4/4)	No.	W-N
6.5(1/3)	Plan & Sectional Elevation of Pipe Line at RD 27.405 Km	Drawing link/6.5(1/3)	No.	W-N
6.5(2/3)	Plan & Sectional Elevation of Pipe line at RD 27.405 Km	Drawing link/6.5(2/3)	No.	W-N
6.5(3/3)	Detailing of Inlet Bay of Pipe Line at RD 27.405 Km	Drawing link/6.5(3/3)	No.	W-N
6.6(1/2)	Typical Details of Canal Lining	Drawing link/6.6(1/2)	No.	W-N
6.6(2/2)	Drainage Arrangement of Lined Canal - Typ. Details	Drawing link/6.6(2/2)	No.	W-N
6.7(1/2)	Plan of Proposed Canal Aqueduct @ RD 37.665 Km	Drawing link/6.7(1/2)	No.	W-N
6.7(2/2)	Sectional Elevation of Proposed Canal Aqueduct @ RD 37.665 Km	Drawing link/6.7(2/2)	No.	W-N
6.8(1/2)	Plan of Proposed Super Passage @ RD 161.236 Km	Drawing link/6.8(1/2)	No.	W-N
6.8(2/2)	Sectional Elevation of Proposed Super Passage @ RD 161.236 Km	Drawing link/6.8(2/2)	No.	W-N
6.9(1/3)	Plan of Proposed Canal Syphon at RD 13.650 Km	Drawing link/6.9(1/3)	No.	W-N
6.9(2/3)	Sectional Elevation of Proposed Canal Syphon at RD 13.650 Km	Drawing link/6.9(2/3)	No.	W-N
6.9(3/3)	Sectional Elevation of Proposed Canal Syphon at RD 13.650 Km	Drawing link/6.9(3/3)	No.	W-N
6.10(1/2)	Canal Cross Regulator Plan @ RD 195.450 Km	Drawing link/6.10(12)	No.	W-N
6.10(2/2)	Sectional Elevation of Canal Cross	Drawing	No.	W-N

<b>Plate No.</b>	<b>Title</b>	<b>Drawing No.</b>
	Regulator @ RD 195.450 Km	link/6.10(2/2)
6.11	Plan & Sectional Elevation of Double Lane Road Bridge at RD 25.770 Km	Drawing No. W-N link/6.11
6.12(1/3)	Canal Stepped Fall Plan @ RD 302.925 Km	Drawing No. W-N link/6.12(1/3)
6.12(2/3)	Sectional Elevation of Canal Stepped Fall @ RD 302.925 Km	Drawing No. W-N link/6.12(2/3)
6.12(3/3)	Sectional Elevation of Canal Stepped Fall @ RD 302.925 Km	Drawing No. W-N link/6.12(3/3)
6.13(1/3)	Canal Fall Plan @ RD 426.275 Km	Drawing No. W-N link/6.13(1/3)
6.13(2/3)	Sectional Elevation of Canal Fall @ RD 426.275 Km	Drawing No. W-N link/6.13(2/3)
6.13(3/3)	Sectional Elevation of Canal Fall @ RD 426.275 Km	Drawing No. W-N link/6.13(3/3)
6.14	Plan & Sectional Elevation of Under Tunnel at RD 29.98 Km	Drawing No. W-N link/6.14
8.1.1	Location of enroute storages and Command Area from Gosikhurd to Lower Wardha Reservoir	Drawing No. W-N link/8.1.1
8.1.2	Location of enroute storages and Command Area from Lower Wardha to Katepurna Reservoir	Drawing No. W-N link/8.1.2
8.1.3	Location of enroute storages and Command Area from Katepurna to Nalganga Reservoir	Drawing No. W-N link/8.1.3
